ORIGINATORS OF NEW CANNAS
WEST GROVE, PA.

Our New Pink Canna—Maidens Blush.

(See Colored Plate on Back of this Page.)

Of all the new Cannas lately introduced this is the most novel and distinct, and if possible the most beautiful of all. The color is almost the exact shade of daybreak carnation, an indescribable tint of pink and rose—daydawn loveliness—just as hard to paint as it is to describe. Our artist has done the best he could, but could not make the color nearly as beautiful as it really is. Everyone says it is one of the sweetest and most lovely shades ever seen. It is an immense bloomer and bears great heads of exquisite lily-like flowers continuously, as long as kept in growing condition. It will bloom nicely in a pot or box in-doors, but should be bedded out when ground is warm and will continue to bloom all Summer and Fall till killed down by hard frost. **The Maidens Blush is an entirely new variety, originated here on our own grounds, and is undoubtedly the finest of its color to date.** We put the price very low in order to introduce it quickly. **Price, strong pot grown plants, 30 cts. each; 2 for 50 cts.; \$3.00 per dozen.**

SPECIAL COLLECTIONS

C. & J. New Ever-blooming Pedigree Cannas

FOR BEDDING.

NOTE—These beautiful Cannas will grow and bloom nicely in pots or boxes in-doors, but should be planted out as soon as ground is warm, they will then continue to flower all through the Summer and Fall until killed down by hard frost. Successors to ALFRED F. CONARD

ROSE AND FLOWER GROWERS, WEST GROVE, PA.

TO ALL OUR KIND FRIENDS AND PATRONS, 1898.

DEAR FRIENDS—We thank you warmly for your kind orders, and promise our best efforts to merit your continued confidence and regard. We present herewith **Our New Guide for 1898**, which we have endeavored to make so handsome and attractive that we hope you will be sure to examine it carefully, and send us a share of your valued orders this season.

Our New Company.

Two members of our Company, Alfred F. Conard and Antoine Wintzer are well-known to many of you as having been engaged in the Flower Growing Business at West Grove ever since its commencement, more than 20 years ago. Mr. Conard is a recognized leader in the mail order business, having conducted it very successfully for many years, and Mr. Wintzer has for more than 20 years grown the millions of beautiful roses, which have made the little town of West Grove known to flower loving people all over the United States.

Mr. Jones is a personal friend and an enthusiast in flower culture, who joins the business for the love of it, and will render valuable assistance—so we are not strangers, but old friends who you can rely upon to serve you as faithfully now as in the past.

Roses on Their Own Roots.

Our Roses are all grown on their own roots from strong, well matured, field-grown stocks, which produce plants of the greatest vigor and vitality. No budded or grafted roses are ever sent out. We give special attention to originating new varieties, and this year have the pleasure of offering two new Hardy Climbing Roses of our own introduction, **MAY QUEEN** and **RUBY QUEEN**. (Two Queens as beautiful as Tea Roses and as hardy as Oaks).

Hardy Flowering Shrubs.

We have the finest Hardy Flowering **SHRUBS**, **CLEMATIS**, **HONEYSUCKLES**, and other Climbing Vines. At the prices given we pay postage and guarantee safe delivery. See full information for purchasers, page 56.

Beautiful **GLADIOLUS**, **TUBEROSES** and other **SUMMER FLOWERING BULBS**.

West Grove Floral Nurseries.

We own the West Grove Rose and Floral Nurseries, with a fine growing stock and plenty of excellent land, including our large ranges of new and improved Green, Houses, built expressly for this business, and full to over-flowing with the choicest Roses and other new and beautiful flowers. We give close, personal attention to all parts of our business—and having long experience ourselves, and able and willing assistants, we are fully equipped to serve our patrons in the most prompt and satisfactory manner.

Our New Pedigree Cannas.

Our new Pedigree Cannas are the finest in the world. We offer 14 magnificent new varieties for 1898, also our famous 1897 Cannas, including **PHILADELPHIA**, **MAIDENS BLUSH**, **DUKE** and **DUCHESS** of **MARLBOROUGH**, **GLORIOSA**, **GOLDEN PEARL**, etc., etc. **OUR FLOWER SEEDS ARE THE BEST THE WORLD PRODUCES**. Again thanking you for kindness, and hoping to have a share of your valued orders this season, we wish all a happy and prosperous year, and remain,

Important Notice. In reply to frequent inquiries, we would say, we have no connection whatever with any other company. **Do not be misled** because you see the name Dingee & Conard Co. **unchanged**. Neither Alfred F. Conard or Antoine Wintzer have any connection with that concern, but long since left it entirely, and though that Company still retains Mr. Conard's name **because they think it their interest to do so, and cannot be legally prevented, he has severed all connection with them years ago**. All communications intended for Alfred F. Conard or Antoine Wintzer should be addressed to **THE CONARD & JONES COMPANY, West Grove, Pa.**, where they will receive prompt and careful attention. New Hardy Hybrid...

Climbing Roses

THE BEGINNING...
OF A NEW RACE OF HARDY CLIMBING ROSES

2 Splendid New Varieties

BEAUTIFUL AS TEA ROSES AND ENTIRELY HARDY

May Queen - - - and - - - Ruby Queen

INTRODUCED BY

THE CONARD & JONES COMPANY

ROSE GROWERS

West Grove, Pa.

NOTE—The originating by hybridizing and otherwise, of new varieties of Roses is a highly interesting branch of the rose growing business, to which we give close attention. Our long experience and thorough acquaintance with the different classes of roses, enables us to judge correctly of the merits of new varieties as obtained; and though we are always on the alert for promising new kinds, we are careful not to admit any we do not think will prove of real value. This year we feel very fortunate in being able to offer the **TWO NEW HYBRID CLIMBING ROSES, MAY QUEEN AND RUBY QUEEN** (described below), which are our own exclusive introduction, and mark the first great advance in Climbing Roses made in many years, and we believe they will speedily take an important place in our list of hardy, free blooming Climbing Roses.

New Hybrid Climbing Rose

MAY QUEEN

The Conard & Jones Co. 1898

THIS splendid new Climbing Rose is a true Hybrid obtained by crossing the beautiful Tea Rose, Mrs. De Graw, with the hardy running Rose, Wichuraiana. It partakes of the nature of both parents, being a vigorous erect growing climber well furnished with handsome foliage, and bearing great numbers of lovely large roses, fully as beautiful as the finest Tea Roses. The blooms are three inches and more across, perfectly double, with raised centre, delightfully sweet scented, and borne in clusters of five to seven all over the bush. The color is clear coral pink, very bright and handsome. **MAY QUEEN** is a strong erect growing climber, entirely hardy, an early and abundant bloomer, and particularly recommended for all situations where hardy, free blooming climbing Roses are wanted. It is undoubtedly the greatest advance made in hardy climbing roses for many years, and must speedily take its place at the head of the list of this valuable class.

NEW MAY QUEEN—Price, strong plants from 3-in. pots, 60 cts. each, postpaid. Ready April 10th.

New Hybrid Climbing Rose

RUBY QUEEN

The Conard & Jones Co. 1898

C. & J. BEAUTIFUL EVER-BLOOMING ROSES

CHOICE VARIETIES OF SPECIAL MERIT

Our Roses are strong, thrifty plants, all grown on their own roots in pots. Being healthy and vigorous and well matured, they grow and bloom abundantly in all ordinary situations, and can be safely planted at any time during the growing season. They require no petting or nursing, are not easily injured by unfavorable weather, begin to bloom very quickly, and continue bearing lovely roses from June to November. If it is desired to keep them over Winter, they should have a good coat of leaves or straw just before severe weather begins. Moderate freezing does not hurt them.

HARDY HYBRID PERPETUAL ROSES.

THE Hybrid Perpetuals are considered the most valuable of all Roses, because they bear the largest, sweetest and most brilliant colored flowers, and are so hardy and vigorous they live over winter without protection and continue to bloom regularly from year to year. Their grand flowers are of all shades of red, crimson, scarlet, pink and white, but no yellows. They thrive and bloom finely in all sections of the country and should generally be planted in open ground, as but few varieties are suitable for house culture. Some kinds do not bloom till the second year, but when fully established bloom regularly at the usual time, and occasionally during the Summer and Fall months. Though called "Perpetual," they are not constant bloomers, but are the finest and most beautiful of all Hardy Roses. We offer the Choicest and Most Beautiful Varieties in Cultivation, and send Strong Healthy Plants from 2½ and 3-inch Pots all on their own Roots. Persons who order at the single rate may select to value of 20 cts. additional on every dollar sent.

New Hardy Memorial Roses For Cemetery Planting.

*** ROSA WICHURAIANA AND ITS HYBRIDS ***

HARDY WHITE MEMORIAL ROSE, (*Rosa Wichuraiana*) will creep all over the ground like an Ivy, or can be trained up to a post or trellis. Hardy as grass, and will grow in sun or shade, poor ground or rich—needs no protection, will take care of itself and bloom profusely every season without attention. Particularly suitable for Cemetery and Park planting, for which immense numbers are used every season. The flowers are single and very large, frequently five or six inches in circumference; pure satiny white with bright golden centre; they are borne in large clusters, covering the plant with a sheet of snowy blossoms during the early summer months. Price, good, strong mailing plants, 15 cts. each; 2 for 25 cts.; \$1.50 per doz., postpaid.

DOUBLE WHITE MEMORIAL ROSE, (*MANDA'S TRIUMPH*). A new Hybrid Wichuraiana of remarkable beauty. The flowers are medium size, perfectly double to the centre, pure white and very fragrant. The plant is an erect grower, has handsome dark green foliage, is entirely hardy and bears its lovely flowers in large clusters; valuable for all purposes where fine hardy roses are wanted. 20 cts. each; 3 for 50 cts.; \$1.50 per doz., postpaid.

SOUTH ORANGE PERFECTION belongs to the same class as the above, blooms freely in clusters. Color, rosy-blush, changing to white, the flowers are perfect rosettes in form, very pretty and entirely distinct from all others. 20 cts. each; 3 for 50 cts.

DOUBLE PINK MEMORIAL ROSE, (*Universal Favorite*). Same as the Double White, except in color, which is clear, bright pink; equally as beautiful as the Double White, and a charming companion for it. Price, 20 cts. each. Will send 1 Double White and 1 Double Pink, the two for 35 cts.; \$1.50 per doz., postpaid.

PINK ROAMER. A more rampant grower than the others, and seems to combine the beauty of the Sweet Briar with the Wichuraiana. The flowers are single, and from two to three inches in diameter; rich pink, with silver white centre, and orange red stamens, exceedingly fragrant and picturesque. 20 cts. each; 3 for 50 cts.; \$1.50 per doz. **The five varieties for 75 cts., postpaid.**

NEW WEEPING LANTANA, Mrs. McKinley.

New Weeping Lantana, Mrs. McKinley.

Our illustration gives some idea of this charming New Weeping Lantana when planted in baskets, vases or pots, for which it is particularly recommended; but it is, if possible, more beautiful still when bedded out. The plant is a neat, handsome grower, producing a great abundance of leafy vines, which cover the ground with their pretty foliage, and bear such an immense profusion of lovely, clear pink flowers that the whole bed seems a sheet of rosy bloom from early Summer till late Fall. Scarcely anything on our grounds attracted more attention last Summer than a bed of this charming Lantana. The flowers are borne in elegant clusters, and hundreds and thousands of them were in bloom nearly all the time. We make prices very low, so as to meet the large popular demand for bedding, window boxes, vases, etc. Price, 15 cts. each; 2 for 25 cts.; 4 for 50 cts.; \$1.25 per doz., postpaid.

THE BEST NEW SWEET PEAS

The New Sweet Peas are the prettiest and most fashionable flowers of their season; we offer the most distinct and beautiful varieties known, the sweetest and loveliest sorts ever seen. All flower lovers should plant them in liberal quantity. They do well everywhere, bloom abundantly and give delight and pleasure to all. The flowers last a long time after cutting, and are so sweet and beautiful they are always in great demand.

THE CULTURE IS VERY SIMPLE.—Plant the seed three or four inches deep in the most convenient place you happen to have, very early in the Spring—just as early as possible—February, March, April or May, according to season and locality. Keep the ground loose and mellow, give the young plants good support to climb on—wire netting, twine or brush. Keep the flowers picked off clean every day as fast as they open (this is very important), and they will bloom abundantly for many weeks. CONARD'S Velvet-Green Lawn Grass Seed.

The Best Brand for Seeding Down New Lawns and Renovating Old Ones.

OUR VELVET-GREEN LAWN GRASS SEED is not excelled by any for producing a smooth, even, velvety-green sward that will withstand drought and hard usage, and always make a handsome appearance. In seeding down a lawn or grass plot, three things are necessary to insure success: First, to prepare the ground so as to have a fine, smooth seedbed; second, to put on plenty of seed, never less, but rather more, than the directions call for; third, to start the lawn mower as soon as the weeds (which are always in the ground and sure to start first) are tall enough to catch, and keep them mowed off close till the grass has time to start and become well established; The seed should be lightly raked in and finished with a roller. Apply any good commercial fertilizer as a top-dressing when needed. One quart of seed is enough for three hundred square feet (fifteen by twenty feet) or at the rate of five bushel to the acre Lawns should be kept neatly mowed, which induces a clean even growth of fresh lively green.

Price by mail, postpaid, 30 cts. per quart; two quarts for 50 cts. In bulk, purchaser paying express charges, \$1.25 per peck; \$4.00 per bushel of 20 lbs.
